Education

- **Indian Institute of Information Technology Lucknow** — Uttar Pradesh, India
  Bachelor of Technology in Information Technology — CGPA: 7.15 — *Aug 2024 – Jun 2028*
- **Shri Maate Manikeshwari PU College, Bidar** — Karnataka, India
  Class XII — Percentage: 87.16% — *Jun 2024*
- **Guru Nanak Public School, Bidar** — Karnataka, India
  Class X — Percentage: 76.8% — *Jun 2022*

Skills Summary

- **Languages**: C++, Python, JavaScript, SQL, HTML, CSS
- **Frameworks**: ReactJS, Next.js, ExpressJS, Spring Boot, NodeJS, Tailwind CSS
- **Databases**: PostgreSQL, MongoDB, MySQL, Prisma ORM
- **Developer Tools**: Git, GitHub, VS Code, Postman, Google Colab
- **Relevant Coursework**: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

Projects

- **Developer Portfolio Website** [Live] [GitHub]
  - Architected a responsive, high-performance web portfolio featuring 4+ profile integrations and dynamic project showcases.
  - Engineered 10+ modular UI components utilizing Tailwind CSS and Framer Motion, boosting interactive rendering efficiency by 25%.
  - Optimized asset loading and client-side page state transitions, reducing initial page load time under 1.2 seconds across mobile and desktop platforms.
  - **Tech Stack:** Next.js, React, TypeScript, Tailwind CSS, Framer Motion
- **Un-Law – AI Legal Document Analyzer** [Live] [GitHub]
  - Deployed an end-to-end AI document processing tool to extract key insights and simplify legal terminology across 50+ page document uploads.
  - Integrated Google Gemini API and PyPDF2 backend pipelines to automate clause extraction and risk analysis with 90% processing accuracy.
  - Constructed a client dashboard rendering interactive PDF previews using pdf.js, reducing user reading comprehension time by 40%.
  - **Tech Stack:** HTML5, Tailwind CSS, JavaScript, Python, Flask, Google Gemini API, PyPDF2, pdf.js, jsPDF
- **HRMS – Human Resource Management System** [Live]
  - Spearheaded full-stack platform development supporting core operations including onboarding, attendance, leave, and payroll across 4 distinct user roles.
  - Built 12+ secure RESTful APIs leveraging Node.js, Express.js, and Prisma ORM within a clean Controller-Service architecture.
  - Implemented multi-tiered security protocols using JWT authentication, email OTP verification, and RBAC to protect user access data.
  - Designed relational schema and optimized database queries in PostgreSQL, maintaining seamless data integrity across all core management modules.
  - **Tech Stack:** Node.js, Express.js, PostgreSQL, Prisma ORM, JWT, HTML/CSS, JavaScript

Achievements

- **Competitive Programming:** Achieved peak contest ratings of **1613** on LeetCode (Top 15%), **1605** (3-Star) on CodeChef, and **1232** on Codeforces after solving 500+ algorithmic problems.
- **GirlScript Summer of Code 2025 (GSSoC'25):** Selected to contribute open-source code enhancements and bug fixes across multiple repositories during a 3-month term.
- **Smart India Hackathon 2025:** Appointed Official College Representative, selected to represent IIIT Lucknow among top tech talent nationwide.
- **Google Cloud Arcade:** Attained Arcade Legend Tier status by completing hands-on labs in cloud infrastructure, IAM policies, and deployment workflows.
